PROFESSIONAL SUMMARY

Motivated Full-Stack Web Developer and Data Analysis professional with strong foundation in Object-Oriented Programming, Data Structures, and Algorithms. Proven expertise in designing and developing scalable web applications using modern technologies including React, Node.js, and MongoDB. Experienced in end-to-end data processing, analysis, and visualization. Seeking Software Engineer or Web Development role to leverage technical skills and contribute to innovative projects.

TECHNICAL SKILLS

- **Programming Languages:** Python, C++, Java, C, JavaScript | Object-Oriented Programming (OOP) | Data Structures and Algorithms (DSA)
- **Web Development:** React.js, Node.js, HTML5, CSS3, Modern JavaScript, REST APIs, Responsive Design
- **Databases & Backend:** SQL, RDBMS, MongoDB, Database Design, Query Optimization
- **Data Analysis & Tools:** Power BI, Microsoft Excel (Advanced), Data Cleaning, Data Visualization, Analysis
- **AI & Machine Learning:** Agentic AI, Large Language Models (LLMs), Prompt Engineering
- **Development Tools:** Git, GitHub, VS Code, npm, Command Line Interface | Other: Computer Networks, System Design

PROFESSIONAL EXPERIENCE

Agentic AI & ML Intern | BR Techgeeks Pvt Ltd | June 29, 2026 - Aug 8, 2026

- Designed and implemented prototype agentic AI workflows capable of autonomous decision-making and task execution.
- Applied machine learning algorithms and utilized advanced prompt engineering to improve model accuracy and logical reasoning steps.
- Collaborated with the technical team to integrate AI agents using Python and evaluated their performance on real-world datasets.
- Tech Stack: Python, Machine Learning, Large Language Models (LLMs), AI Agents

Data Analyst | Labmantix Pvt Ltd (Remote) | Aug 2025 - Feb 2026

- Performed end-to-end data pipeline management including data collection, rigorous cleaning, transformation, and complex analysis using Python and SQL
- Created comprehensive data visualizations and reports using Power BI and Excel to provide actionable insights for stakeholders
- Developed and maintained SQL queries for data extraction and analysis from relational databases
- Collaborated with cross-functional teams, maintained strict project timelines, and demonstrated exceptional attention to detail in professional environment
- Tech Stack: Python, SQL, Power BI, Excel

PROJECTS

CLINICAL SCREENING SYSTEM FOR DIABETIC RETINOPATHY

- Developed a deep learning-based automated screening system to detect and classify stages of diabetic retinopathy from retinal fundus images.
- Engineered and trained Convolutional Neural Networks (CNNs) for robust image feature extraction, assisting in early disease detection and diagnostic accuracy.
- Tech Stack: Python, TensorFlow, React.js, CSS, OpenCV, CNNs

Jewellery E-Commerce Website (Full-Stack) - Team Hackathon Project

- Designed and developed responsive full-stack e-commerce platform for online jewellery shopping using React.js, Node.js, and MongoDB
- Created intuitive user interface with modern React components, state management, and responsive CSS styling
- Collaborated with team members to deliver project on time with clean, maintainable code
- Link: <https://roshni-jewellers.vercel.app/>

Personal Portfolio Website - HTML, CSS, Modern JavaScript

- Built responsive personal portfolio website showcasing projects, skills, and technical expertise
- Implemented interactive features using vanilla JavaScript with smooth animations and user-friendly navigation
- Utilized modern CSS3 techniques for responsive design across desktop, tablet, and mobile devices
- GitHub: https://github.com/nishantdeshwal484/new_portfolio_web

EDUCATION

- Master of Computer Applications (MCA) | Panipat Institute of Engineering and Technology | Aug 2025 - June 2027 (Pursuing)
- Bachelor of Computer Applications (BCA) | Panipat Institute of Engineering and Technology | Aug 2022 - June 2025
- Senior Secondary Education (Arts with Mathematics) | New Mahawati Sports Sr. Sec School | April 2021 - June 2022
